Note: A strand test is recommended on previously colored hair. *30 Volume (9%) Creme Developer may be used on fine hair. A strand test is recommended.

PRE-TREATMENT

Apply ColourPrime Pre-Color Treatment to the hair prior to all color applications to optimize color retention.

APPLICATION

Please reference Shade Selection Chart above. Apply Aloxxi DIMENSIONS. **Off-scalp** application only.

DEVELOPMENT TIME

30-45 minutes. Fine hair is more receptive to hair color; therefore less development time may be required.

REMOVAL & POST TREATMENT

Emulsify and rinse the hair thoroughly with tepid water. Apply Aloxxi ColourLock Post-Color Finisher to cleanse and condition the hair, close the cuticle and neutralize residual developer. Leave on for 2 minutes. Rinse and follow with the Aloxxi CARE and STYLE lines.

TIPS

- Aloxxi DIMENSIONS may be mixed with Aloxxi Boost for additional lift. Mix 1 part Aloxxi DIMENSIONS to 1 part Aloxxi BOOST to equal amounts of Aloxxi 40 Volume (12%) Creme Developer.
- Shades can be mixed together to achieve custom colors.
- Color results may be less intense on natural or previously colored dark hair.
- On previously colored hair, a strand test is recommended prior to application.
- Heat optional. Strand test recommended.

RETOUCH APPLICATION

Apply Aloxxi DIMENSIONS to new growth area (base) only. Aloxxi TONES Demi-Permanent Colour is recommended to refresh previously colored mid-lengths and ends.
